

## **Guidelines for the Grading of International Officials**

### **1. Introduction**

1.1 This Grading Guidelines document covers all categories of Officials:

- Technical Officials (Technical Delegates, Technical Officers and Judges);
- Umpire Managers;
- Umpires.

1.2 The purpose of the FIH Panel/Level System is to

- provide Officials with a clear understanding of the requirements and pathways for their careers,
- have a transparent, performance-based system which supports the FIH and Continental Federation (CF) event portfolios with high-quality Officials suitable for all types and levels of competition, and
- facilitate the FIH Umpiring Committee's and FIH Technical Officials Committee's role in assisting in the education, development and succession planning for all officials.

1.3 Unless otherwise specified, all provisions hereunder apply for all categories of Officials.

1.4 For the purposes of these Grading Guidelines, it should be noted that the final decision regarding all Panel/Level assignments, upgrades, re-grades, and changes of status rest with the FIH Technical Officials Committee (for technical officials) or the FIH Umpiring Committee (for umpires and Umpire Managers) respectively.

### **2. FIH International Officials**

2.1 Candidature and Awarding of FIH International Official Status

Upon the qualification criteria for membership in the International Panel (IP) as specified hereunder having been met, the Official's NA may submit a fully completed International Official Application Form to the CF for verification and approval. (<https://www.fih.hockey/static-assets/pdf/fih-international-official-application-2024.pdf>)

Upon approval, the CF submits the application to the FIH Sport Manager. With this submission, the CF confirms the official's conversational proficiency in English and, in the case of umpires, their necessary fitness levels. If all formal requirements are met, the FIH Sport Manager confirms the new Panel/Level.

2.2 General Requirements

All FIH International Officials must:

- (a) Be regularly active in their respective role at the top level of an FIH-affiliated National Association (NA), not necessarily their own, and active within a CF.

- (b) Have a complete and up-to-date knowledge and understanding of the relevant Rules of Hockey and Tournament regulations and their application.
- (c) Be able to understand and communicate in English.
- (d) Have general computer/IT skills including the ability to use various platforms commonly used for communication and collaboration.

### 2.3 Role-specific Requirements

In addition to the general requirements for all International Officials specified under item 2.2,

- (a) Technical Officials must have a working knowledge of TMS.
- (b) Umpire Managers must be currently active as an umpires' coach/selector/assessor at the highest level of competition for their own or another NA that they may be affiliated to and have a working knowledge of TMS. From Level 3 upwards, Umpire Managers must also be able to use match analysis tools such as Coach Logic.
- (c) Umpires must be physically mobile and able to reach the minimum fitness standards as specified for their respective Panel/Level. Fitness testing must be performed and results submitted in accordance with the FIH Umpire Fitness Guidelines (available at <https://www.fih.hockey/about-fih/official-documents/fih-umpires-and-umpire-managers/umpires>). From Level 3 upwards, Umpires must also be able to use match analysis tools such as Coach Logic.

### 2.4 Termination of International Official Status

The status of active International Official ceases:

- (a) Upon request or notification of retirement from the International Official.
- (b) Upon notification from the Official's NA or CF that the Official is ineligible or not supported by the NA or CF; (CFs to inform FIH immediately to update active lists).
- (c) On 31 December following reaching the age of 47 years for Umpires and 65 years for Umpire Managers and Technical Officials.

*Note:* A one-time extension of the status of active FIH Official may be granted by the FIH Technical Officials Committee or the FIH Umpiring Committee respectively by means of awarding an appointment to a specific event. In that case, the active status of the International Official ceases on the day following the completion of the event (or, in the case of cancellation or abandonment of the event, immediately upon announcement of the decision to cancel or abandon).

- (d) At the discretion of the FIH Technical Officials Committee or the FIH Umpiring Committee respectively where inappropriate behaviour, including, but not limited to, any breaches of the FIH Integrity Code or Code of Conduct has been reported and verified in accordance with the principles of natural justice.

*Note:* Depending on the nature and severity of the behaviour / breach, the FIH Technical Officials Committee or the FIH Umpiring Committee respectively may impose a permanent exclusion or temporary suspension from officiating or a re-grade (re-assignment to a lower Panel/Level).

### 2.5 Inactivity

If an Official has not been active at the top level of an FIH-affiliated NA or CF or has not officiated internationally in two (2) consecutive years, the Official will be considered inactive.

Inactive Officials will not be appointed by FIH. They may be nominated by CF or their own NA for international matches or events. Having officiated in at least one International Match, the Official's active status may be reinstated, with the Level assigned based on performance.

## 2.6 Declared Inactivity

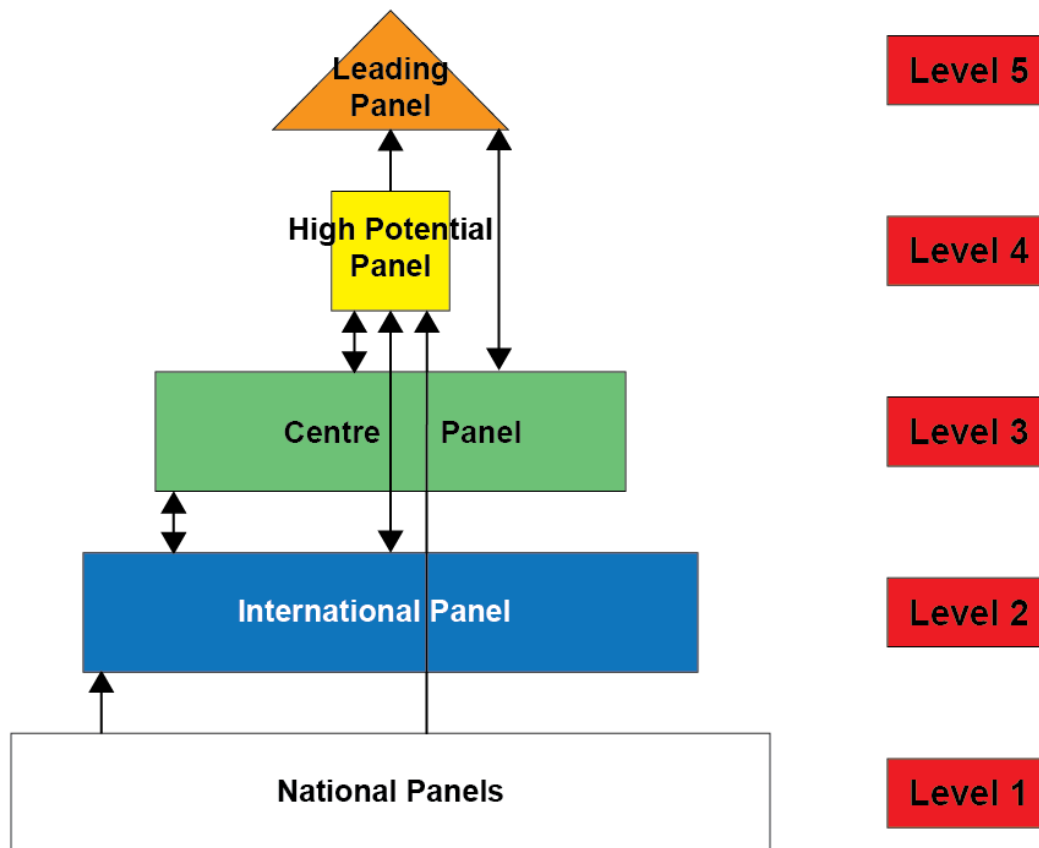

Officials must advise their CFs and FIH in writing of any planned or known extended unavailability (e.g., injury, illness, career, family reasons or taking a break) to facilitate smooth and efficient planning by the FIH Umpiring Committee and the FIH Technical Officials Committee respectively. The Secretary of the FIH Umpiring Committee and the FIH Technical Officials Committee respectively will keep a list of those declared as inactive in the relevant categories.

In case of a declared inactivity of more than 6 months, an Official may be reinstated to active international status at the end of the declared inactivity after officiating in at least one international match of qualifying status, and for Umpires additionally, after submission of a fitness test to the FIH by their NA that fulfils the requirement of the Level that they wish to return to. It is at the discretion of the FIH Technical Officials Committee or the FIH Umpiring Committee respectively to decide at which Level the Official will be reinstated.

## 2.7 Failure to Submit Fitness Testing Results or Meet Fitness Requirements

For Umpires, a failure to submit fitness testing results in accordance with the FIH Umpire Fitness Guidelines or failure to meet the relevant fitness requirements may, at the discretion of the FIH Umpiring Committee, lead to the Umpire being re-graded and/or considered inactive.

### 3. Panel/Level Structure and Pathways

The Panel/Level structure as depicted above lays out the different Panels/Levels in relation to each other.

- 3.1 Level 1: National Panels are controlled by the NA upon their nominations to CFs in accordance with this document.
