Junior Pan American Championship

Re: Clarification on JWC Qualification and Schedule

JWC Qualification

To clarify the JWC for Women qualification from this tournament:

PAHF qualifies the top 3 teams from the 2024 Junior Pan American Championship plus one additional team based on the review by the FIH CC using FIH Junior World Rankings. World Rankings were only used to add any additional allocation of teams from the continents.

If the host comes from the PAHF, an additional team will qualify from the 2024 Junior Pan American Championship.

To summarize, the top 4 teams from the 2024 Junior Pan American Championship automatically qualify for the 2025 JWC. A 5th team will qualify **only** if the host comes from the PAHF from the 2024 Junior Pan American Championship. At this time, there has been no decision on the host for the 2025 JWC by the FIH.

Schedule change

Based on the projected tournament rankings from the pools, the schedule will change as follows to support adequate rest time supporting athlete safety on 10 July 2024:

13:30- Men's 1st in pool v 4th in the pool

15:45- Women's 1st in pool v 4th in pool

18:00- Women's 2nd in pool v 3rd in pool

20:15- Men's 2nd in pool v 3rd in pool

Thank you for your attention to these important matters.
